PROFILE

AI product engineer with a frontend foundation, working professionally since 2015 and building with React since 2016 and Next.js since 2018.

Often the first frontend hire: owns architecture, tooling, design systems, and delivery, then helps grow the team through hiring, onboarding, and engineering playbooks.

Specialises in AI products, agent systems, dashboards, and proprietary data explorers across cybersecurity, crypto, gaming, and early-stage startups.

EXPERIENCE

AI Product Engineer

Mar 2025 - Present

rj11io / B2B · Remote

- Build AI products end to end for multiple early-stage startups, taking projects from the ground up.
- Product work spans PDF data extraction, SEO analytics, a GenAI dermatopathology portal, cybersecurity dashboards, proprietary data explorers, and AI chat / GPT experiences.
- Design agent harnesses, custom skills, automations, smart-scraping agents, and n8n workflows.

Product / Datavis Engineer

Apr 2024 - Mar 2025

Hunt Intelligence, Inc. / B2B · Remote

- Specialised in data visualisation for threat intelligence, including custom components such as the IP History Widget.
- Built AttackCapture™ and HuntSQL™ on a TypeScript / Next.js codebase with shadcn/ui, Playwright, Vercel, and GitHub Actions CI/CD.
- Created an OpenAPI-based documentation platform, enriching raw schema metadata and shipping a UI designed to be more intuitive than Swagger.

Senior Frontend Engineer → Team Lead

Jun 2023 - Apr 2024

OMEGA Systems / Remote

- Joined to build CORE5, OMEGA's next-generation iGaming platform management system, and was promoted to lead the frontend team.
- Delivered dashboards, reports, configuration views, localisation / internationalisation, and an internal Tab System UI.
- Built the developer onboarding experience and set standards for tickets, documentation, async workflows, and the Definition of Done.

CONTINUED

Senior Frontend Engineer

Jan 2022 - May 2023

Phantasma Chain / Remote

- Built the frontend monorepo for new tools and apps, the Phantasma UI Storybook, and Phantasma Explorer.
- Implemented Playwright testing, GitHub Actions CI, and Vercel delivery; contributed improvements to the Phantasma TypeScript SDK.
- Created shared tooling for SDK integration, localisation, white-label theming, environment configuration, and API / scripts / hooks.

Frontend Lead

Feb 2020 - Oct 2021

BinaryEdge / Coalition, Inc. / Remote

- Started as a solo frontend engineer and grew a team focused on customer-facing security products and internal tools.
- Introduced React, TypeScript, Material-UI, Nivo, Next.js, and micro frontends; served as tech lead for Coalition Explorer, the component library, and data visualisations.
- Built Attack Surface Monitoring on the BinaryEdge Portal, later integrated into Coalition Explorer and Coalition Control; migrated frontend CI/CD from Drone to GitHub Actions.
